rubbish

Læseforståelse

Læs teksten grundigt, og svar derefter på spørgsmålene.

It is important to sort rubbish properly. Here are some examples of the different kinds of waste:

Food waste:

- Meat and fish
- Eggshells
- Bread
- Fruit and vegetables

Metal:

- Empty tins
- Aluminium packaging
- Caps

Please note that the metal must be empty and clean.

Paper:

- Newspapers
- Egg cartons
- Letters

Please note that the paper must be clean and dry.

Gloser

rubbish/waste - *affald*

tin - *dåse*

packaging - *emballage*

cap - *kapsel*

Læseforståelse

Læs teksten grundigt, og svar på spørgsmålene på næste side.

Glass:

- glass and glass bottles
- preservation jars
- shards of glass

Please note that the glass must be empty and scraped clean.

Plastic:

- Plastic trays, containers and lids
- Plastic bags without film
- Plastic toys without electronics

Please note that the plastic must be empty and scraped clean.

Residual waste:

- Dirty paper or cardboard
- Wrapping paper and napkins
- Chips or coffee bags

In short, waste that cannot be recycled.
